

TAY's SoSOL and ESOA champs.

5th time lucky for TAY's SoSOL at Dalguise on Nov 4th. You will appreciate why the planners thought it too much of a challenge in February and March 2010, when despite controls being placed, it was called off.

Then a horse-riding event and capercaillie resulted in two further failed attempts. However, despite intervening changes in the forest, it is now looking good

For the blue and brown courses, a timeout section will mean that full advantage can be taken of the high open area of Craigvinean and there will be the novelty of ascending around 230 m but descending 350m.

All courses will see the lower mixed deciduous and conifer woods at their autumn best.

Entries via Fabian 4. Full details on www.taysideorienteers.org.uk.

ESOA Champs/SoSOL3
